PRICE LIST 2009

ORDER FORM

Alan Waterhouse

Alan began his career as a French Polisher over 60 years ago with a small family firm of French polishers as an apprentice for 7 years. Until 1988 he was a senior full-time lecturer in Traditional Finishing at the School of Furniture, Central Manchester College, when he re-established his French Polishing and Furniture restoration business.

Philippa Barstow

Philippa began a full-time course in 1984 at the School of Furniture. The two year course involved cabinet making, wood machining, upholstery, modern and traditional wood finishing. She obtained City and Guilds Craft Certificates in all disciplines, as well as Advanced City and Guilds Certificates in both modern and traditional wood finishing.

Alan and Philippa have written the most authoritative book about French polishing to date. It is entitled French Polishing and has been well received since its publication in 1993 and is currently out of print. They have also collaborated to produce a companion video/dvd also entitled French Polishing.
